

THE ACADEMY AS AN AI FIRST ORGANIZATION

Strategy, governance, and innovation
in the Age of Agentic AI

DANIEL ZAMIR

Head of Public Sector, AWS
Commit

EMBRACING THE FUTURE – NOW!

Global Tech Services

Innovating end-to-end software, cloud and IoT solutions since 2005
Israel, USA, EMEA, UK

Multidisciplinary Professionals

Our secret is our people
Global talents intentionally

Customers

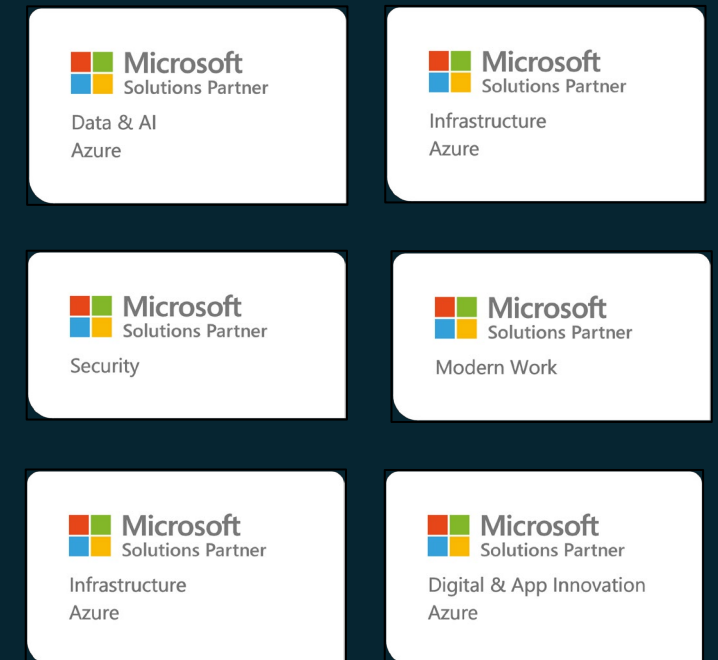

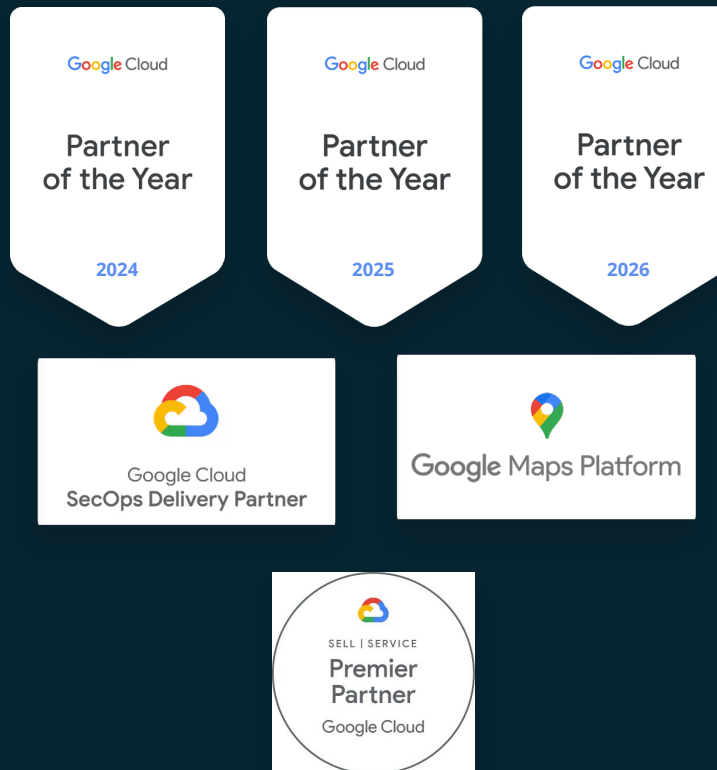

Small startups to large enterprises, in multiple business sectors

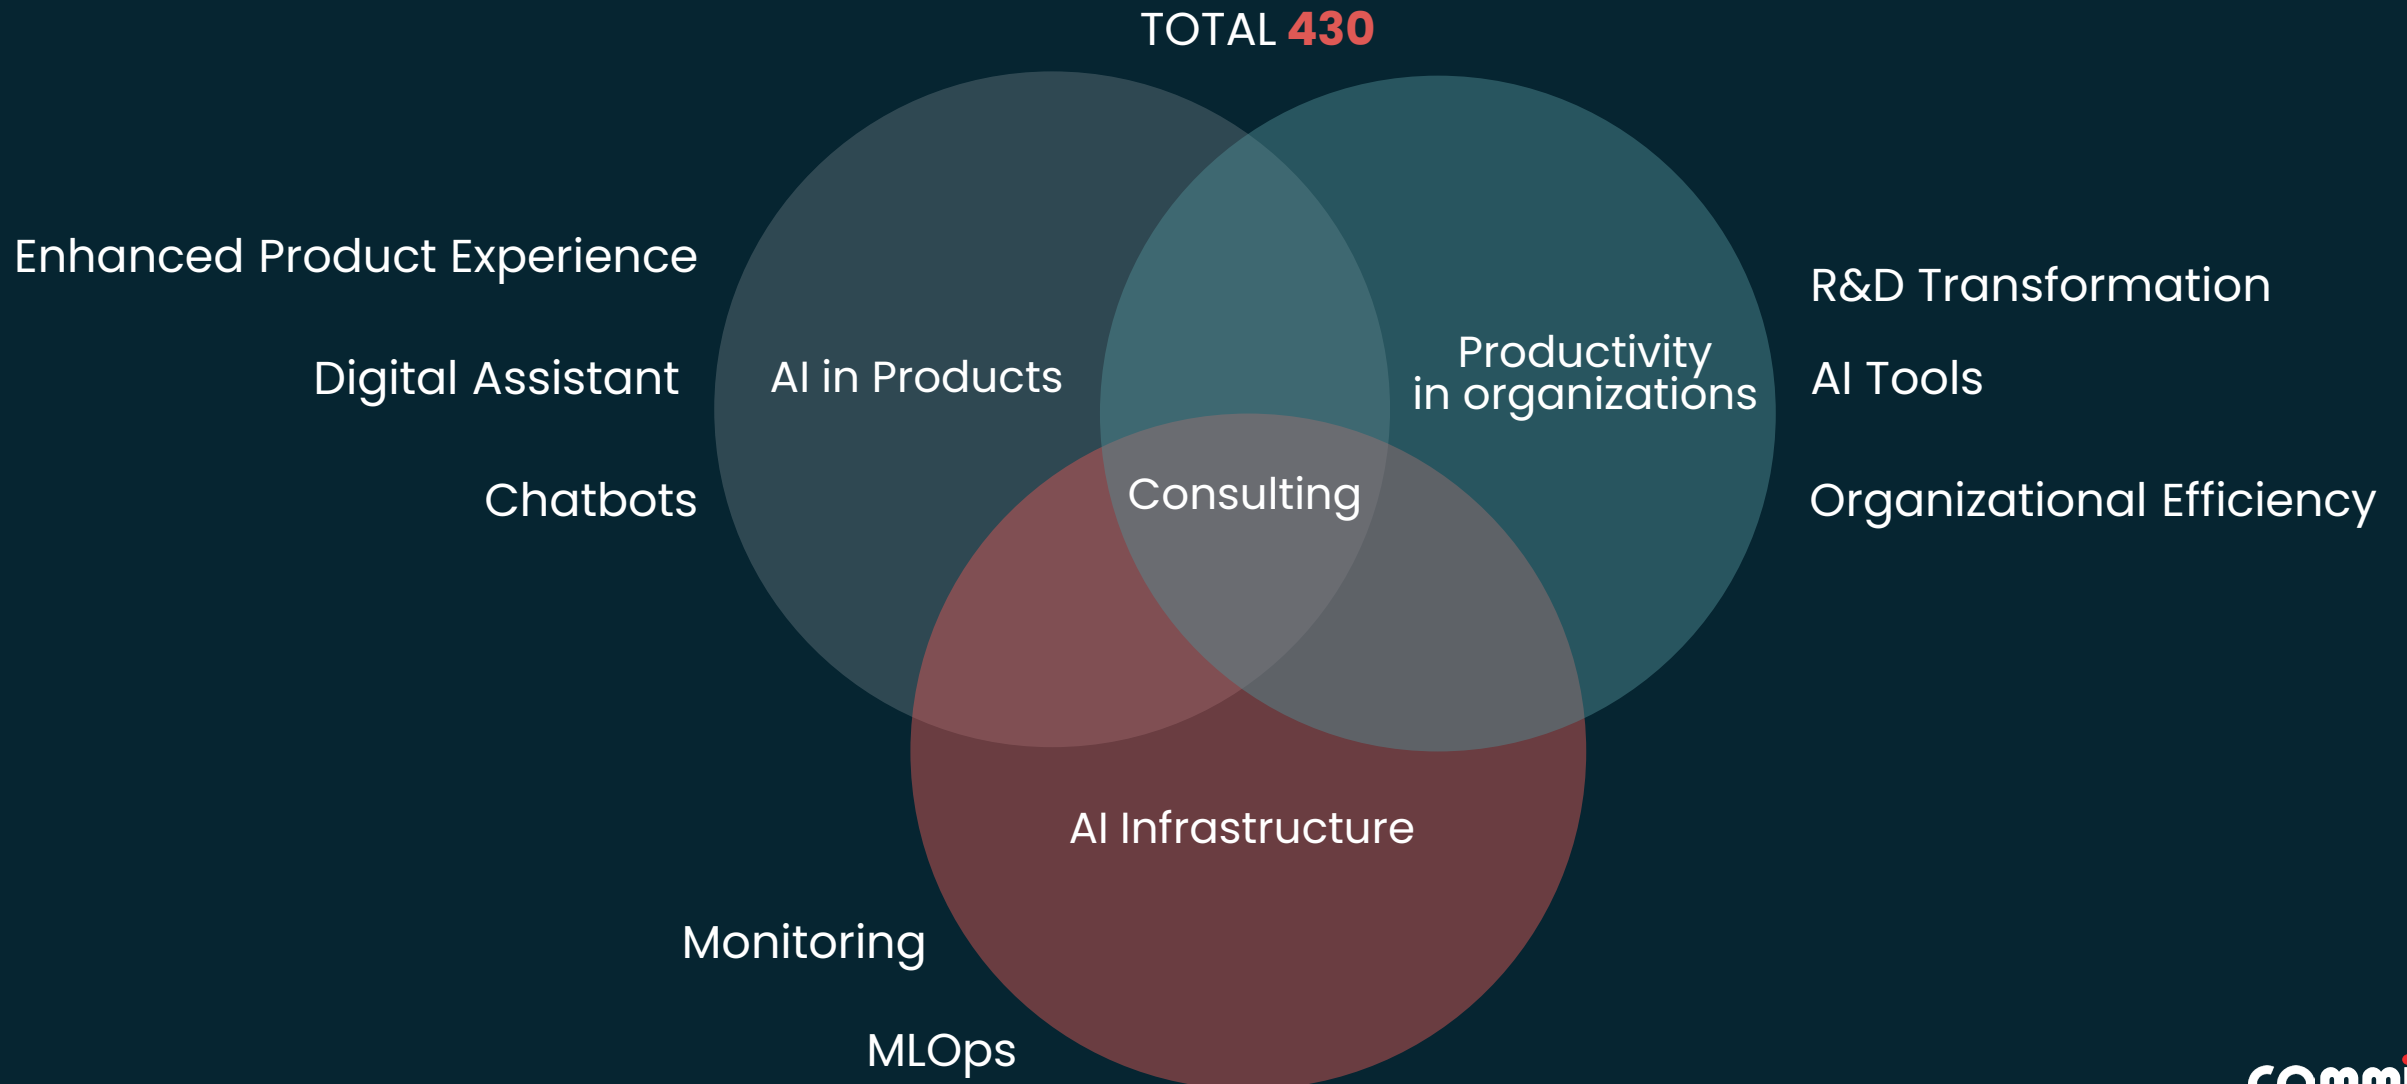

Nimbus Projects

From conception to production and scale, we support our customers

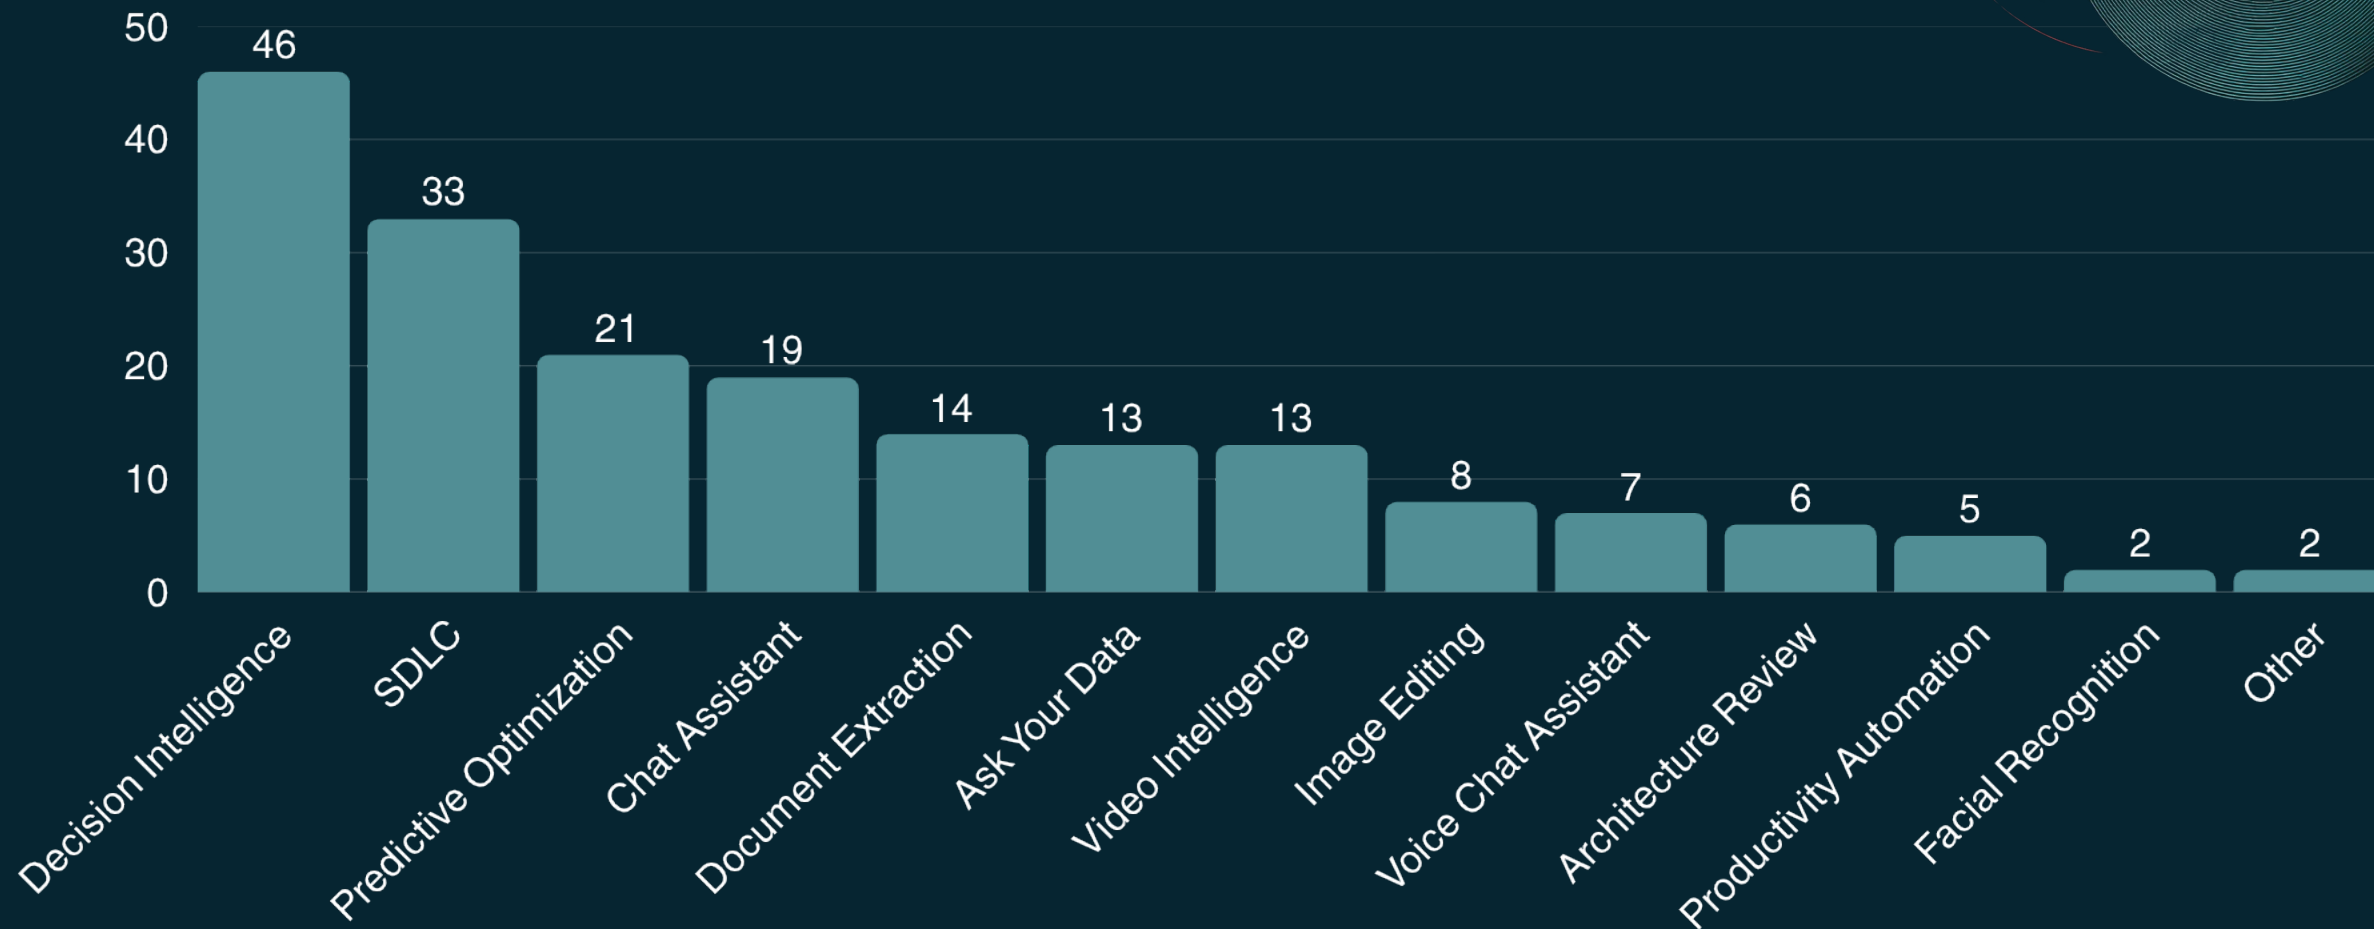

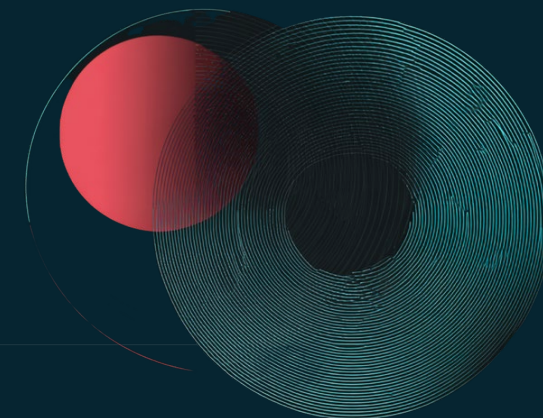

SETTING THE STANDARD IN **CLOUD INNOVATION**

OUR OFFERING

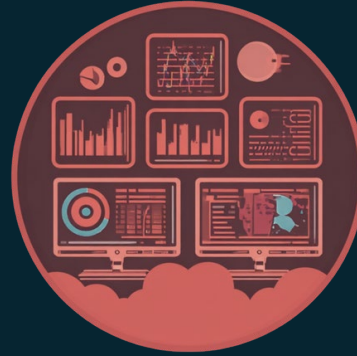

USE CASES

CHALLENGES

Technology is changing fast

No clear processes on how to do this right

1. Employees taking law into their own hands – duplications and lack of support
2. No clear use case priority or ROI measurement
3. No clear infrastructure that can hold all of this together

PROCESSES AND SOLUTIONS

ONE STEP AT A TIME

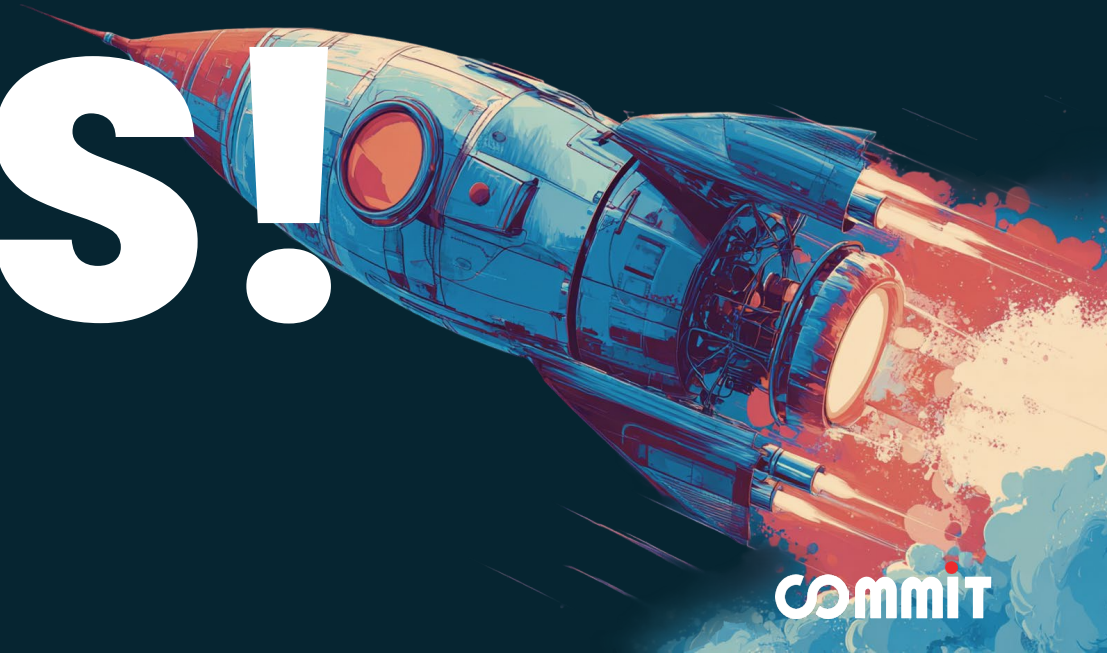

A holistic, multi-layered approach to systematic internal transformation.

AI ORGANIZATIONAL EFFICIENCY

IN JUST

14 DAYS!

COMMIT

PROJECT EXAMPLES

Commit built the Technion's AWS cloud foundation from the ground up, including a dedicated landing zone and a digital portal that enables researchers and staff to provision AWS services while automatically allocating costs to the appropriate research grants.

האוניברסיטה הפתוחה
THE OPEN UNIVERSITY OF ISRAEL
الجامعة المفتوحة

Commit is developing an AI-powered chatbot for the Open University that enables students to instantly access answers from their course materials, improving the learning experience by eliminating the need to manually search across university resources.
